1st stage:
 larger air buffer
 on hammer
 mechanism

Vibration control
2nd stage: floating
 rear handle

**TURBO
 POWER**
Higher impact force
 on GBH 5-40 DCE 11J

**Lowest vibration
 level in class**

BPM adjustment
 (Bosch patent)
 always automatically
 resets to highest
 level after plug-in

**New SDS Max
 Comfort system,**
 one handed tool
 change

Specification	GBH 5-40 DCE
Rated power input	1150 W
Single impact force	2–10/11 J [†]
Rated speed (rpm)	170–340
Impact rate (bpm)	1500–3050
Drilling Ø in concrete	12–40 mm
Drilling Ø core cutter	40–90 mm
Weight	6.4 kg
Tri-axial vibration level*	
Chisel	8 m/s ²
Hammer drilling in concrete	10 m/s ²
Variable speed control	Yes

* in accordance with EN 60745-2-6 † turbo power
